ABOUT ME

I'm an 18-year-old Web developer, I learned programming by myself, and I started with Python. After four months, I delved into HTML, CSS, and JavaScript and then I expanded my skills with ReactJs & APIs, I can make fully responsive websites and performance optimization. I'm going to be a full-stack developer with Python Django.

EDUCATION

Front-End Developer
Web4You Academy
2023-2024

WORK EXPERIENCE

2024: Web4You Academy

Front-End Developer

I got work placement after a Front-End course making some website front-ends with responsive

LANGUAGE

English
